SECTION 8 – TIN HERB POT

Make these charming tin can herb pots and watch them grow all summer long!

This project not only recycles, it creates detailed new life.

Start your tin can pot at least 4-6 weeks prior to the Exhibition. Your plant should look as if it has been Growing in the tin can and not as if newly transplanted or germinated. A 4-inch potted plant will be enough to make 2-3 vegetable sized can or one larger can.

• Allow 4-6 weeks when planting from a transplant
• Allow 6-8 weeks when planting from seedling

Label your tin pot with the correct herb variety (ie), such as ‘Basil’, ‘Thyme’, ‘Parsley’, ‘Oregano’, etc… as some varieties look and smell similar. If a class project, encourage the students to grow
more than one type of herb. That way the students will have more variety to enter and you won’t have 20-30 tin pot herbs that look exactly alike. Remove insects as well as diseased, damaged or dead leaves prior to drop-off day. Tin pot herbs found infested with insects or disease will not be accepted in order to prevent their spread to other exhibits.

CHOOSING FLORAL MATERIAL FOR EXHIBITION PURPOSES
The following are the major factors to bear in mind. Failure to acknowledge them can only result in loss of points.
Uniformity and Quality

These two factors embrace the whole field of floral exhibiting and may be briefly condensed into the following sub-headings:

Stems

Stems should be approximately the same length, not twisted or crooked, too short, or damaged. Exhibiting less than, or more than, the number of stems specified in the catalogue will result in disqualification of the entry.

Foliage

Flowers should be shown with their foliage attached except where specified in the catalogue, i.e., bird of paradise, shell plant. Foliage should be clean, free of dirt, soil sprays, dust, and insects. Leaves should be as free from damage as possible. Flowers must not be on foliage plants.

Flowers

A group of cut flowers should be the same colour and species unless otherwise indicated. Choose flowers that are not damaged, too old, fading, wilting, or starting to curl at the edges. Do not enter flowers that close at night or wilt quickly i.e., oxalis, oleander, etc. Where a single bloom is called for it is better to disbud. Although grooming is allowed, it should not be obvious as points will be lost. The stewards reserve the right to reject any entries that are sub-standard or are not according to schedule.

GLOSSARY

Definitions are as intended for this Catalogue. Persons who make furniture or furnishings for monetary reward or who teach woodwork or woodcraft are considered professional for the purposes of this division. Entries from professionals, amateurs, juniors and special students will be judged separately.

Due to limited space there are size restrictions on exhibits. Exhibits must be carried pre-assembled into the display hall. Assembly of large objects in the hall is not permitted.

If entries are sufficiently numerous or diverse, judges may subdivide classes into sections. In junior entries while parents’ and guardians’ interest is encouraged and very desirable, it is work by the young person that is being judged. Woodwork submitted by those under 12 years old must be accompanied by a statement explaining which part of the work was completed without assistance.

N.B. Handicraft items such as macramé, string art, pottery, needlework, exhibits made of pegs, ice-cream sticks, items made from kits or anything not specified, will NOT be accepted. ‘FOR SALE’ signs are prohibited. Exhibits should not have been entered in previous Annual Exhibitions. Any such exhibits entered will be subject to disqualification.
